

Eighteen-Light Pond Lily Lamp

Date

ca. 1900

Primary Maker

Tiffany Studios

Medium

Blown glass with bronze

Description

Eighteen-light "lily" lamp. Of green patinated bronze base. The platform is created by large water lily pads & attached to the platform is a band of vines, buds & water lily pads. Eighteen curved bronze tubes of various heights with petalled shade holders are clustered at the center of the platform. The shades are of mold-blown transparent amber glass. The bodies are ribbed & the tops are ruffled. The interior & exterior of the shades have a predominately gold multi-colored iridescence.

The interior & exterior of the shades have a predominately gold multi-colored iridescence.
