

## Candlestick

### Date

ca. 1900-1905

### Primary Maker

Tiffany Studios

### Medium

Bronze | Glass

### Description

Bronze candlestick with a brown and green finish. A "turtleback" tile with a multi-colored iridescence and divided by seven metal strips forms the base. The knob is ribbed and the stem has several small projections. A candleholder with twelve oblong apertures of alternating sizes is screwed into the stem. Opaque jade-green glass was blown into the holder. A metal cup is in the holder.

### Dimensions

Overall: 15 3/4 in. (40 cm)
