

Candlestick

Date

ca. 1900

Primary Maker

Tiffany Studios

Medium

Bronze | Glass

Description

Cast bronze, glass blown into copper top, candlestick (one of a pair) with a brown and green finish. Plain knoped stem with the candle socket screwed on. The base is slightly shaped and round. The candle socket has eight apertures of alternating sizes and around the hole of the holder is an applied string of metal beads. Opaque jade-green glass was blown into the holder.

Dimensions

Overall: 17 1/2 in. (44.5 cm)
