## Candelabra

### Date

ca. 1900

### Primary Maker

Tiffany Studios

### Medium

Bronze | Glass

### Description

Bronze two-light candelabra with a "tree-trunk" base. Screwed into the two top limbs are candleholders with diamond-shaped openings. Opaque jade-green glass was blown into the candleholders. Resting inside each holder is a metal cup. A short conical section of bronze is on top of the stem. A snuffer is attached to this section with a chain. Similar to piece in Koch, G-B-L, p. 106, Fig. 149 first on left.
