## Celery Glass, High Foot

### Date

ca. 1813-1850

### Primary Maker

Coventry Glass Works

### Medium

Mold blown glass

### Description

This celery glass is a mold-blown glass in geometric design (bowl and foot both in McKearin GII-18) bowl in cylindrical form, flaring at top to wide-folded rim and curved in at bottom, attached to conical flaring foot with folded edge. Bowl has 16 diamonds in bottom and diamond band on body is 3-1/2 diamonds high.
